

Neutron Reflectometry – A tool to probe interfaces at nanoscale

What happens at the surface of an electrode in a battery?

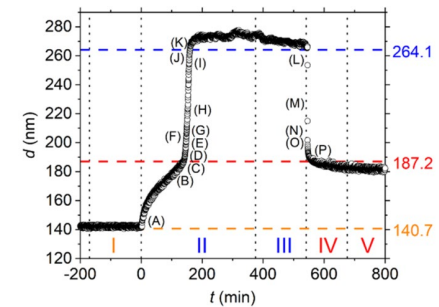

N. Zec *et al.*, PCCP (2020), 22, 12104-12112

What happens to a biomimetic membrane if nanoparticles of different shapes are injected?

L. Caselli *et al.*, PCCP (2022), 24, 2762-2776

How to create a nanosensor able to detect traces of substances in the atmosphere?

C. Geiger *et al.*, Adv. Eng. Mater. (2021), 23, 2100191
